WITH BLUETOOTH CONNECTION

## KEY FEATURES

Programmable through App

Certified IP67

Installation without cables

## MAIN FUNCTIONS

Total and partial counts

Sensitivity adjustment

SOS Alarm function

Service function to set vehicle  
maintenance intervals

Bluetooth Low Energy connection

**Smart SOS** is a wireless hour meter with a settable SOS alarm.

This device features an internal accelerometer, which detects when the bike falls and sends a notification with GPS position to the selected contacts through a free App.

**Smart SOS** allows also to record standard and customized service intervals, to keep the bike at the highest level of efficiency and performance; and it also tracks total and partial counts.

**Smart SOS** can be installed directly on the frame, without needs of cables or sensors, is water and dirt proof and is equipped with a CR2032 replaceable battery.

Only Smart SOS free App allows to use all the device features.

- 1. SOS:** The App sends notifications to the registered contact in case of crash,
- 2. SERVICE:** The App records customized maintenance intervals to keep the bike at the highest level of efficiency and performance.
- 3. HOUR METER FUNCTION:** The App shows total or partial counts and allows to set the device sensitivity.
